Digitalisasi Konten di Era Revolusi Industri 4.0, Langkah Terbaik Membuat Akses Semakin Mudah!

FY Fabyan Yastika · Teknologi · 20 Jul 2022 11.44 WIB

#57TahunTelkom #DigitalBisaUntukSemua

Era revolusi industri 4.0 menjadi salah satu tantangan besar yang harus dihadapi semua kalangan untuk bisa melangkah maju. Digitalisasi diperlukan untuk bisa membuat kualitas konten yang dibuat menjadi semakin tinggi. Kendati demikian, kualitas konten juga bergantung kepada makna yang terdapat di dalamnya.

Artikel

Video

Kelas

Acara

Project

03

terdapat dalam gawai seseorang yang pastinya digunakan untuk memberikan tampilan konten yang dibuat. Anda harus bisa benar-benar memastikan bahwa kemampuan konten yang dibuat dihasilkan sesuai dan ramah bagi para penikmat konten nantinya.

2. Audiens

Audiens yang dimaksud yaitu penikmat konten digital yang akan memberikan tampilan konten yang telah dibuat. Audiens dapat digunakan sebagai pertimbangan yang nantinya akan membantu untuk memilih-milah topik yang lebih disukai. Terdapat beberapa kategori audiens yang beragam dalam era revolusi industri 4.0 saat ini, mulai dari tingkat terkecil yaitu anak, remaja, dewasa, bahkan lanjut usia bisa saja menjadi penikmat konten yang kita buat. Nah, dalam pemanfaatan digitalisasi sebagai konten, Anda harus bisa memikirkan hal tersebut.

3. Kondisi

Kondisi saat ini menjadi hal penting yang juga harus dipikirkan ketika ingin melakukan digitalisasi. Anda harus bisa melihat kondisi yang akan terjadi apabila digitalisasi dilakukan. Pastikan semua kondisi berjalan semestinya sehingga digitalisasi konten dapat dilakukan.

4. Tujuan dan manfaat

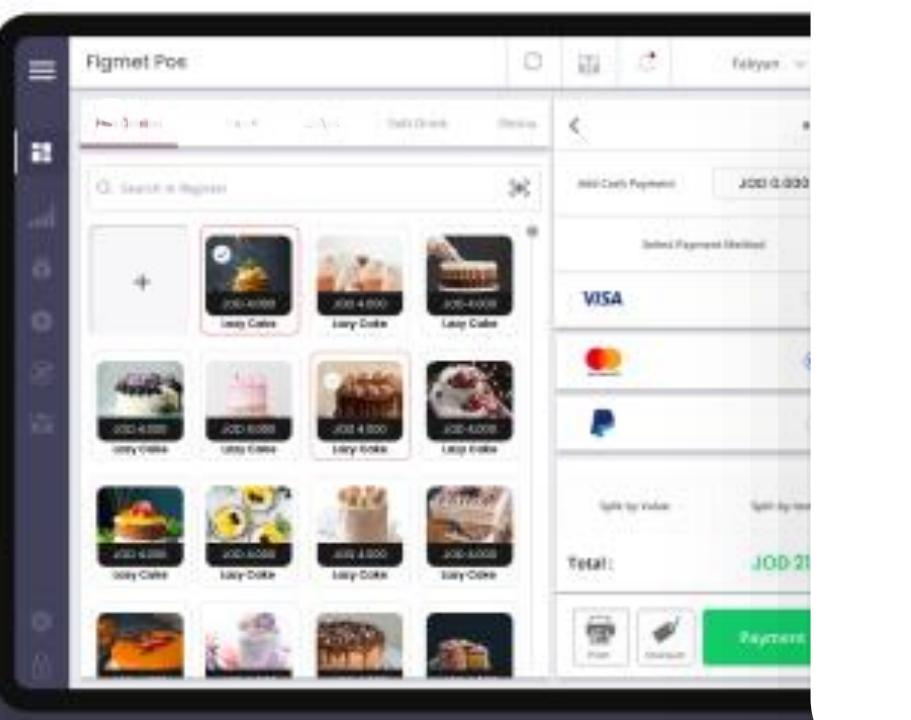

Tujuan serta manfaat juga bisa menjadi pertimbangan dalam digitalisasi yang akan Anda lakukan nantinya. Anda harus bisa mengetahui apa tujuan dari hal yang akan dilakukan sehingga harus dilakukan digitalisasi. Sebenarnya, banyak juga tujuan yang bisa didapatkan karena digitalisasi. Akses yang mudah, lebih cepat menjangkau banyak audiens, cara memperoleh informasi lebih cepat juga bisa menjadi salah satu tujuan dari digitalisasi. Nah, manfaat pembuatan digitalisasi konten juga harus bisa dirasakan bagi audiens yang nantinya akan menjadi penikmat konten kita. Tentunya, manfaat positif yang harus ia dapatkan agar bisa terus menikmati konten secara digital.

5. Analisis data

Analisis data berpengaruh penting ketika hendak melakukan digitalisasi konten. Hal tersebut perlu diperlakukan untuk bisa tetap meningkatkan pertumbuhan audiens terhadap sebuah konten. Analisis data untuk berubah menjadi digital bisa saja dilakukan dari hal yang sederhana tergantung dari audiens yang telah menikmati konten kita. Anda bisa saja melakukan pengumuman terlebih dahulu kepada audiens terkait digitalisasi konten yang akan segera dilakukan.

Digital Bisa (Online Media)

Capture of My Design

Offers a curated showcase of my UI/UX design portfolio, demonstrating my expertise in creating visually appealing and user-centered digital experiences.

A screenshot of a website for 'Course With Us'. The header includes a purple navigation bar with 'Home', 'About', 'Our Tutors', 'Our Courses', 'Login', and 'Sign Up'. Below the header, there's a large call-to-action button with the text 'Learn Without Limits' and 'Access 100 million course-specific study materials'. To the right of this button is a stack of colorful books. Further down, there are three main sections: 'About Us' (with a smartphone icon and 'Find Out More' button), 'Our Top Tutors' (with a person icon and 'Find Out More' button), and 'Our Courses' (with a backpack icon and 'Find Out More' button). A yellow plus sign icon is overlaid on the left side of the page.

A screenshot of a university website. At the top, there's a green banner with the text 'Join With Us!' and a 'GET STARTED - It's Free' button. Below this is a large image of a smiling man standing in front of a modern building. The main content area features a 'Our Team' section with three circular profile pictures of people. A large yellow camera icon is overlaid in the center of the page. A blue plus sign icon is overlaid on the bottom right.

A screenshot of a game store website. The header features a logo and the text 'Selamat Datang di Game Store'. Below the header is a 'LOGIN' button and a 'REGISTER' button. There are two input fields for 'Username' and 'Password', each with a green checkmark icon. A large blue plus sign icon is overlaid on the bottom right. On the right side, there's a sidebar with 'Tentang Game Store' (Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. Ut enim ad minim veniam, quis nostrud exerci tatione ullamcorper suscipit lobortis nisl ut aliquip ex ea commodo consequat.) and 'Fitur' (Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. Ut enim ad minim veniam, quis nostrud exerci tatione ullamcorper suscipit lobortis nisl ut aliquip ex ea commodo consequat.).

A screenshot of a university website. The top features a large image of a modern building with the word 'WELCOME' overlaid. Below the image is a blue banner with the text 'Selamat Datang di Website Resmi D-3 RPLA Telkom University' and 'REHAKAN YUK!'. The main content area has a 'DOSEN KAMI' section with several circular profile pictures of faculty members. A large yellow circle icon is overlaid on the bottom right. A blue plus sign icon is overlaid on the bottom left.

UI UX Design

University Website # Top3

Project

UI UX Design

A collage of various website pages from the project, including:

- Join With Us!**: A landing page with a large photo of a smiling man, a "GET STARTED - It's Free" button, and sections for "Why Should You Join Us?" (Efficiency, Teamwork) and "What Our Customers Saying" (Angelina Jolie).
- Our Team**: A page featuring a team member's profile (Josh) and several video thumbnails of the team working together.
- What We Do**: A page showing the services offered: Design, Record, and Typography.
- Contact Us**: A page for users to find the company and send messages via email.
- Resources**: A page listing resources for Home, About, Contact, and Join.
- Subscribe**: A page where users can input their email address to subscribe.

The overall design is clean, modern, and professional, utilizing a green color scheme and circular icons.

What About This Project?

In this project I created a website for e-commerce using CodeIgniter Framework that will help sell online in a very easy to understand way.

What's My Role?

I built this project by myself by starting to design a nice front-end to an easy-to-understand back-end algorithm.

Are There Any Challenges?

For myself, there were challenges because I was using a framework that was my first experience. But I managed to overcome it by reading a lot of documentation until I finished the project properly.

Payment School Website

Project Title

Payment School Website

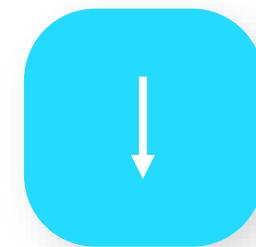

The screenshot shows the main dashboard of the Payment School Website. On the left, there is a sidebar with navigation links: admin, Dashboard, SPP, Kelas, Siswa, Petugas, Pembayaran, Laporan, and Logout. The main content area displays a table titled "DATA SPP" with three rows of data. Each row contains columns for No, Tahun, Nominal, and Aksi (with buttons for EDIT and HAPUS). The table includes a search bar at the top and a "Tambah SPP" button.

No	Tahun	Nominal	Aksi
1	2022	Rp1.200.000	<button>EDIT</button> <button>HAPUS</button>
2	2023	Rp1.500.000	<button>EDIT</button> <button>HAPUS</button>
3	2021	Rp500.000	<button>EDIT</button> <button>HAPUS</button>

The screenshot shows a table titled "DATA SISWA" with two rows of student information. The columns include No, Nisn, Nis, Nama, Kelas, Alamat, No telp, Spp, Edit, and Hapus. Each row has a "EDIT" button and a "HAPUS" button. The table includes a search bar at the top and a "Tambah Siswa" button.

No	Nisn	Nis	Nama	Kelas	Alamat	No telp	Spp	Edit	Hapus
1	123	567	Faisal	XII TKJ	Jl.menju kemenangan	0842184911	2022 - 1.200.000,00	<button>EDIT</button>	<button>HAPUS</button>
2	12345	123	Abhi	XII RPL	Jl.ni aja dulu		2022 - 1.200.000,00	<button>EDIT</button>	<button>HAPUS</button>

The screenshot shows a landing page for "SPP SMK". It features a large orange "SPP SMK" logo at the top, followed by a "Copyright © SPP SMK" notice at the bottom.

Technology:

The image shows a composite view of a mobile application interface and a conceptual illustration. On the left, a mobile screen displays a payment history for the year 2022, showing monthly tuition amounts (e.g., Januari: Rp1.200.000,00) and payment status (e.g., Sudah Lunas Januari). Below this is a 'Pilih & Bayar' button for each month. On the right, a large yellow circle contains a white icon of a briefcase. Below the mobile screen is a blue rocket launching from a launch pad, with a person sitting nearby, symbolizing success or achievement.

What About This Project?

This is a school project for tuition payments that must be paid every month. In this project, there are several main menus such as student data to payment data.

What's My Role?

I created this SPP website by myself by determining the appropriate algorithm and using a good front-end.

Are There Any Challenges?

Actually for the challenge in this project is in choosing a more effective algorithm, after looking for many references on the internet and beginner responses I managed to get the best insight.

AI Based Website

Project Title

Education AI Website

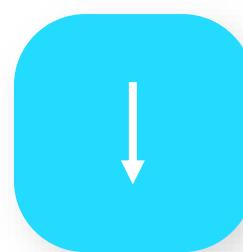

03

The screenshot shows the 'Chat' section of the website. At the top, there's a search bar with the placeholder 'Write your message' and a 'Send' button. Below it, a message from 'Anonym' dated '19 August 2023' says 'cora mengolah telur'. A response from 'AI' dated '19 August 2023' provides a cooking recipe:

```
1. Rebus telur. Rebus telur hingga matang dengan cara memasukkan telur ke dalam panci berisi air mendidih. Biarkan telur rebus selama 8-10 menit. 2. Kupas telur. Setelah telur matang, angkat telur dari panci dan kupas kulitnya. 3. Potong telur. Potong telur menjadi beberapa bagian sesuai selera. 4. Sajikan. Telur rebus siap disajikan dengan berbagai macam bumbu dan sa
```

The screenshot shows the 'Dashboard' menu. It includes links for 'Dashboard', 'Menu', 'Chat', 'Translate', and 'Jurnal'. The 'Menu' link is currently active, indicated by a blue background.

The screenshot shows the 'Welcome Students!' page. It features a search bar, a 'Welcome Students!' message, and a 'Here are our gallery.' section. The gallery displays several images: a girl in a red shirt, a person holding a backpack, and a group of students at a desk. On the right, there's a 'Chat With Your AI Mate' interface with a message input field and a timestamp '2023-08-19 cora mengolah telur'.

Technology:

An apple is a round fruit with a variety of colors, often red or green, originating from the apple tree, Malus domestica. Its juicy and crisp flesh can be sweet or tart, offering a refreshing taste. Rich in dietary fiber and vitamin C, apples are not only a healthy snack but also used in diverse dishes like juices, sauces, pies, and cakes, making them a symbol of vitality worldwide.

GITHUB

What About This Project?

This project is an Artificial Intelligence-based website that I created by utilizing APIs from OpenAI or ChatGPT.

What's My Role?

I made the components and menus in this website myself, of course, by paying attention to user friendliness with very easy usage.

Are There Any Challenges?

Working on a 24-hour Hackathon, I struggled to complete it, but I read through the documentation and managed to create a good project.

What About This Project?

This is a project that aims to be an assignment creation service, the client asks to be made like an e-commerce system but in assignment service.

What's My Role?

When working on assignments, I design good interfaces and easy-to-understand backend algorithms by myself.

Are There Any Challenges?

Due to using OpenAI's API for the Chat AI feature I had some trouble customizing it, but I managed to learn the documentation better.

What About This Project?

This project is a large project from a corporate client to create an information system website, which can organize employee data and salary data.

What's My Role?

I worked on and designed the system myself with attention to the algorithms used, as well as confirmation to the client for ease of use.

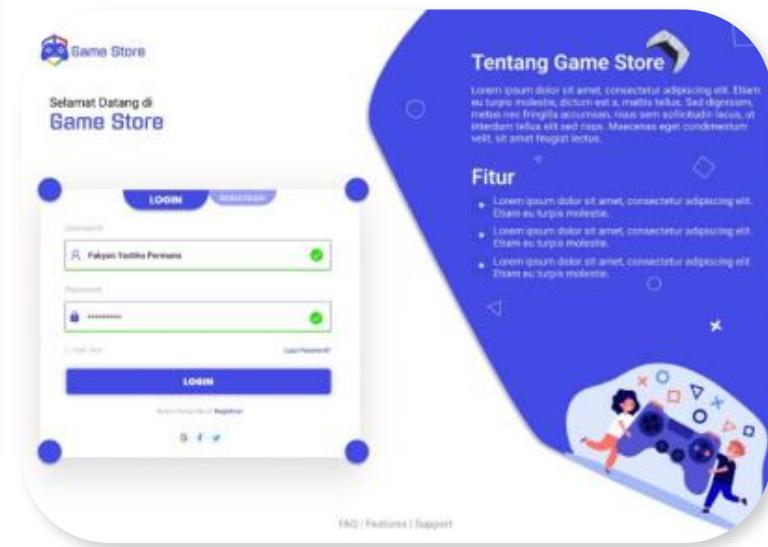

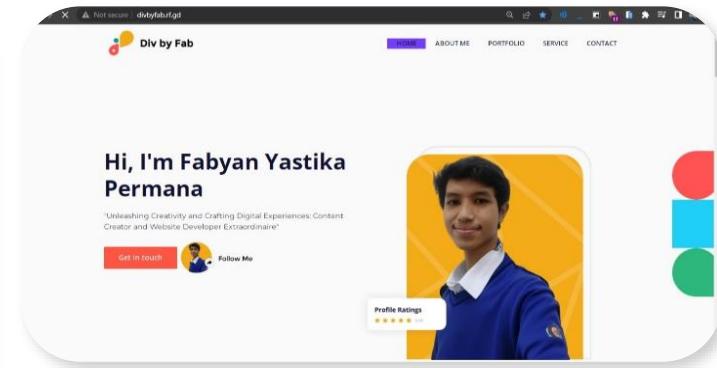

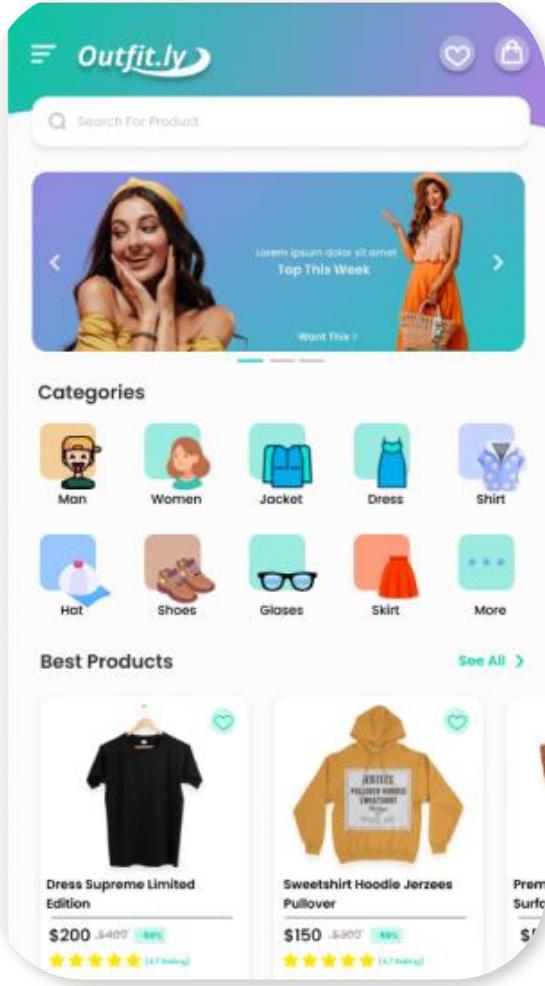

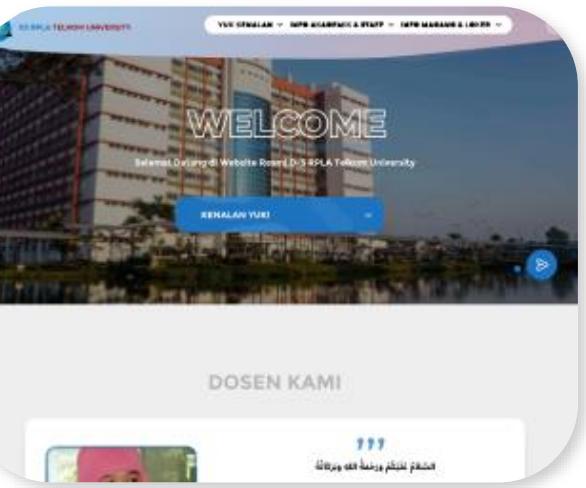

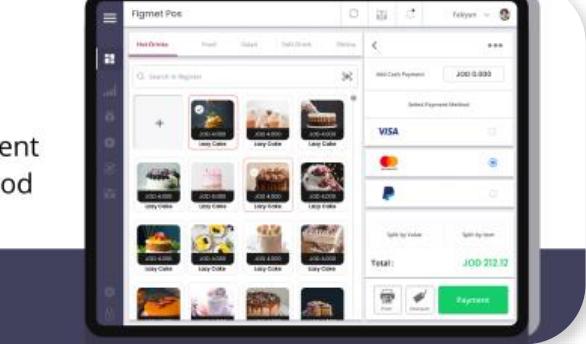

Are There Any Challenges?

The difficulty may be in implementing the client's explanation in the system. My solution is to find the best way and change it to be more efficient.

Another Portfolio

This is another portfolio that I have created from website creation to UI UX Design by implementing user-friendly.

Best Project

My best project was when creating a large-scale information system website, which required a good focus due to the small budget. I did every step carefully and confirmed intensely with the client.

I was able to create an information system website for a company that can be used to organize all the data needed.
